

LIGHTLINER – TECHNICAL DATA

► MEASUREMENTS

	Type 8 924 71
Overall size (L x W x H)	1.040 x 640 x 1.100 mm
Advertising panel	500 x 383 mm (back) / 500 x 358 mm (front)
Load capacity	300 kg
Empty weight (Aluminium)	15,5 kg

► SPECIFICATIONS

	Type 8 924 71
Material of the frame	Aluminium
Material of the basket	Stainless steel
Nestable	✓
Plastic parts: blue similar to RAL 5017	✓
Manoeuvrable, particularly easy handling	✓
Three-wheeled version (ø 180/160 mm)	✓
Smooth running, silent	✓
Automatic parking brake, released when nested	✓
Entire braking system made of polyamide, easily adjustable	✓
Robust, precise braking action	✓
Push-handle made of dark blue, hand-friendly EXLAN plastic	✓
Push-handle with exchangeable strip for advertising/pictographs	✓
Loading platform slopes to the rear (15°)	✓
Spacious basket for small baggage items	✓
Front bumper rail made of EXLAN plastic	✓
All wheels with two water and dust-proof ball bearings	✓
Castor housing with large, dust-proof deep-groove ball bearing	✓
Wheel guards and deflectors made of plastic	✓
Large advertising panel (500 x 400 mm) of PVC, without imprint	✓

► OPTIONS

	Type 8 924 71
Basket advertising panel (446 x 81 mm) of PVC, without imprint	✓
Plastic parts grey RAL 7001	✓
Adapter for use with baggage cart depots	✓
Deflectors on wheel yokes made of plastic	✓

Type 8 924 71 (aluminium)

The LightLiner is the “cruiser” of our baggage cart range. Covering long distances, e.g. during cart retrieval, is its speciality. Thanks to EXPRESSO’s ingenious “Winglet” brake release system, the last cart pushed into the rear of a nested train releases the parking brake of the cart in front – whereby all the cart wheels remain on the ground. This guarantees precise tracking and a minimum curve radius. However, its main advantages come to bear in tight spaces and narrow passages.
